

Build It Green

Certified Green Building Professional Training & Designing & Building Green Energy Efficient Homes

LEARN HOW TO DESIGN & BUILD HEALTHIER, HIGHER QUALITY GREEN HOMES!

The California Advanced Homes Program from Southern California Edison is proud to support Build It Green. Through these training classes the construction industry is learning valuable tools to keep California leading the way in energy efficiency and sustainable building.

-John Morton, Southern California Edison

Take advantage of our **Member discounts** and **Early Bird Registration**.

- ◆ \$50 discount for Build It Green or BIA/OC Members
- ◆ \$50 Early Bird discount for registering by deadline date

Certified Green Building Professional (CGBP) Training

- ◆ Learn the science of buildings; energy, water, indoor air quality, & materials
- ◆ Build the home: design, structure, and envelope, systems, interiors & finishes
- ◆ Learn how to market the benefits of green building to your customers
- ◆ Get listed in the *Certified Green Building Professional Directory*

**This is the prerequisite course for all other Build It Green professional trainings.

Designing & Building Green Energy Efficient Homes- Advanced CGBP Training

- ◆ Learn step-by-step strategies to effectively design new homes or upgrade and remodel existing homes, using a whole house evaluation
- ◆ Walk through a comprehensive green home analysis focusing on energy and water efficiency and improved indoor air quality
- ◆ Understand building integrity & energy performance testing, efficient hot water systems, mechanical ventilation, insulation, weatherization, moisture management and *EPA's New Indoor airPLUS program*

**You must have completed CGBP training or equivalent. Course fulfills CGBP and GPR recertification requirements.

I highly recommend to anyone interested in transitioning to a new career or expanding their existing skill set to attend Build It Green's CGBP and Designing & Building Green Energy Efficient Homes Trainings. The City of Irvine's Residential Retrofit Program is launching a comprehensive consumer outreach program with the goal to increase demand for green retrofits and remodels. Take advantage of the opportunity to get trained now!

-Chandra Krout, City Of Irvine
