FUSCOE ENGINEERING ANNOUNCES THE PROMOTION OF SAMANTHA FABING, PE TO PROJECT MANAGER IN ITS IRVINE OFFICE

IRVINE, CALIFORNIA – September 23, 2019 – Fuscoe Engineering, Inc. is pleased to announce that **Samantha Fabing, PE** in its Irvine office has been promoted to Project Manager.

Samantha Fabing, PE

As a civil engineering professional with 10+ years of experience designing new and redevelopment projects, Samantha continually seeks to expand her knowledge beyond one division or specialty. She has successfully executed projects within the commercial/industrial, residential, mixed-use and educational sectors. Samantha also has experience working in construction management, where she has gained invaluable experience which she uses in conjunction with *full circle thinking*® for all her projects. Succeeding as a Project Manager and team leader, while cultivating and implementing Fuscoe's company culture, are just a few goals she seeks to uphold in her role.

Samantha is a resource for residential, mixed-use and commercial projects, as well as construction administration. She has extensive experience designing and processing projects throughout California, including Orange County, San Diego, Los Angeles, Ontario, Corona, Camarillo and Sunnyvale. She is also a resource for hydrology and hydraulic analysis, ADA requirements, roadway design and 3D modeling using AutoCad Civil 3D. Samantha's clients include Irvine Company, Sares Regis, KFA, WS Communities and Legacy Partners.

Samantha is currently working on 1 AMD Place Redevelopment located in Sunnyvale, Safe Landing Exodus Foundation in Los Angeles County, SEED LA Public Charter School in Los Angeles, Marriott Courtyard & Residence Inn, Neptune Marina Apartments in Marina del Rey, and multiple Irvine Company apartment redevelopments in Irvine. Her past significant projects include Vista Monterey Apartments in Corona, Hollywood Park Casino in Inglewood, Advanced Technology & Education Park in Tustin and Northgate Marketplace in Los Angeles. Samantha is a graduate of San Diego State University and resides in the city of Santa Ana.

Samantha is passionate about advocating STEM to young women and children as well as prepping young adults for successful careers in Land Development. She applies the same level of enthusiasm for inspiring future generations of engineers to providing top quality service for all her clients' projects.

"Samantha has quickly risen to positions of increasing responsibility at Fuscoe Engineering and is widely respected for her leadership skills and creative design solutions. She is a very talented civil engineering professional who exercises remarkable initiative in all she does," stated John Olivier, PE, President of Fuscoe Engineering.

Fuscoe Engineering, Inc. is an award-winning employee-owned firm. Fuscoe provides civil engineering for land development and public infrastructure, using an eco-adaptive® approach. Specialty practices include survey and mapping, stormwater management, sustainable site design and geospatial technology services. The firm's project bandwidth spans commercial, retail, hospitality, mixed-use and residential developments, as well as public streets and parks. On-going company objectives include developing leading-edge engineering solutions, while promoting sensitivity to the environment. Fuscoe has offices in Irvine, Los Angeles, San Diego, Ontario, El Centro and San Ramon.
